# Announcements

These are the announcements for November 7, 2025.

## Webhooks Updates

Webhooks version 1 will be decommissioned in April 2026. See [\*Webhooks version 2 in the Developer Center\*](#).

# Features Introduced This Week

## Commercetools 25.3.0

<b>Description</b>	<p><b>This release integrates the PayPal Express Checkout REST API into Commercetools 25.3.0.</b></p>
<b>Audience</b>	<p><b>Users of Commercetools.</b></p>
<b>Benefit</b>	<p><b>Integrating PayPal into our Commercetools extension will provide additional payment options, increasing flexibility and choice for resellers and their merchants. It will also improve the user experience by offering a widely recognized and trusted payment method.</b></p>
<b>Technical Details</b>	<p><b>None.</b></p>
<b>Important Dates</b>	<p><b>Released to production October 31, 2025.</b></p>

## Decision Manager | RM-37000

<b>Description</b>	<p><b>This release adds six new Distance Calculations fields to Decision Manager for customers who use the Elephant service. The fields appear in the Decision Manager user interface in the Business Center and are fully supported across the rule builder. Each field returns a numeric value in miles representing the distance between the specified data points.</b></p> <p><b>The new fields are:</b></p>
--------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

- Distance (miles) – Billing Address to Shipping Address
- Distance (miles) – Billing Address to IP
- Distance (miles) – Billing Address to True IP
- Distance (miles) – IP to True IP
- Distance (miles) – Shipping Address to True IP
- Distance (miles) – Shipping Address to IP

### Considerations

- Rounding/precision: values are provided in miles. Use `>=` or `<=` operators for clarity in rules.
- Missing data: if any endpoint (address, IP, or True IP) is unavailable, the field might be null. Add null checks in rules to avoid unexpected behavior.
- Methodology: distances reflect standard geodesic calculations between latitude/longitude points derived from address geocoding and IP intelligence.
- Only merchants who use Device Intelligence will have access to the True IP-based distances.

#### Audience

**Users of Decision Manager and Elephant.**

#### Benefit

**Using these fields to check for geographic consistency improves risk assessment and rule precision.**

#### Technical Details

**None.**

#### Important Dates

**Released to production October 31, 2025.**

# Fixed Issues

## Business Center | RM-36927

### Description

### This release contains these updates:

- A bug that prevented the Enable/Disable toggle button in Card and BIN Management from working properly is fixed.
- A bug that prevented Merchant Search from working properly was fixed.

### Audience

**Users of Card and BIN Management and Merchant Search in the Business Center.**

### Technical Details

**None.**

### Important Dates

**Released to production November 6, 2025.**

# Known Issues

## Decision Manager Reports | EPS-34418

<b>Description</b>	When users attempt to retrieve the Profile Rule Performance Report, there is a long delay followed by a red banner error.
<b>Audience</b>	<b>Users of Decision Manager Reporting.</b>
<b>Technical Details</b>	<b>None.</b>
<b>Workaround</b>	<b>None.</b>

## Decision Manager Case Management | EPS-33121

<b>Description</b>	Marking records do not appear in the Marking Tools page of the Case Management page.
<b>Audience</b>	<b>Users of Case Management in Decision Manager.</b>
<b>Technical Details</b>	<b>None.</b>
<b>Workaround</b>	<b>You can reference the positive list for customer information.</b>

## Settlement | EPS-34508

<b>Description</b>	Mechants who configured their account for a 365-day settlement window instead of the default 180 days are not able to settle transactions after 180 days.
<b>Audience</b>	<b>Mechants who configured their account for a 365-day settlement window.</b>

**Technical Details**

**Error message:** The request id for the transaction is either invalid or missing.

**Workaround**

**None.**
