

# CyberSource Endpoints

June 2020

This document provides information about the endpoints to use when sending an API request message to CyberSource.

## Endpoints for the Simple Order API

In the URLs in this section, *1.x* is not a placeholder for the version number but an integral part of the URL.

---

### Internet Endpoints

For live transactions, send requests to the production URL:

<https://ics2ws.ic3.com/commerce/1.x/transactionProcessor>

For test transactions, send requests to the test URL:

<https://ics2wstest.ic3.com/commerce/1.x/transactionProcessor>

The XML schema for the Simple Order API is at the same location as the production URL:

<https://ics2ws.ic3.com/commerce/1.x/transactionProcessor>

### Akamai Endpoints

For live transactions, send requests to the production URL:

<https://ics2wsa.ic3.com/commerce/1.x/transactionProcessor>

For test transactions, send requests to the test URL:

<https://ics2wstesta.ic3.com/commerce/1.x/transactionProcessor>

The XML schema for the Simple Order API is at the same location as the production URL:

<https://ics2wsa.ic3.com/commerce/1.x/transactionProcessor>

## India Endpoint

To view the Simple Order XML schema and send live transactions in India, use the India production URL:

<https://ics2ws.in.ic3.com/commerce/1.x/transactionProcessor>

# Endpoints for the SCMP API

## Internet Endpoints

For live transactions, send requests to the production server:

<http://ics2.ic3.com>

For test transactions, send requests to the test server:

<http://ics2test.ic3.com>

## Akamai Endpoints

For live transactions, send requests to the production server:

<http://ics2a.ic3.com>

For test transactions, send requests to the test server:

<http://ics2testa.ic3.com>

---
